

GOING BEYOND A RATER

HawkLink

Quote and bind without paying for a rater.

A PURPLE COW
experience STANDS OUT
from the herd

Getting client and policy data into carrier portals and other policy servicing sites is no longer a manual entry nightmare. Our HawkLink extension for Chrome and Edge makes it effortless by auto-filling client & policy data in HawkSoft directly into website fields.

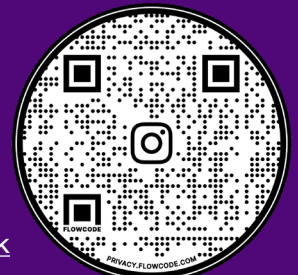

AGENTS CAN USE HAWKLINK'S DATA AUTOFILL FOR:

- Bindable quotes
- Billing and payment inquiries
- Policy changes/endorsements
- Payment processing
- Premium finance
- E&S markets
- City, county, and state assessment sites
- App markets
- And much more!

All included with HawkSoft at no additional cost.

about HawkLink

hawksoft.com/hawklink

One tool

for all carrier and policy servicing needs.

REIMAGINE QUOTING

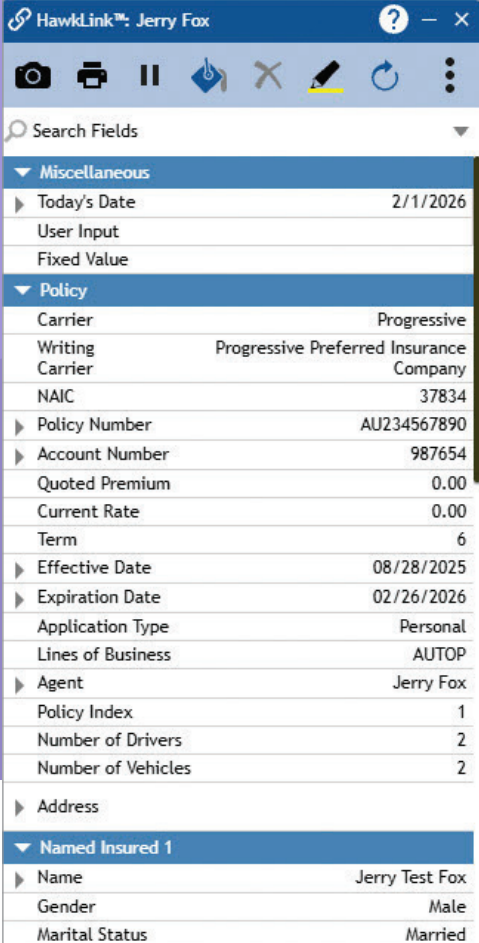

Get accurate, bindable quotes—not ballpark estimates—from multiple carrier websites without paying for a rater.

SPEED UP POLICY SERVICING

Flood data to websites for all your policy servicing needs, from payments to VIN lookup.

EASY AS 1, 2, 3

Add the extension, map the data fields on any website (or use crowd-sourced mappings for 400+ sites), and get autofilled data whenever you use the site!

The screenshot shows a web browser window titled "HawkLink™: Jerry Fox". The interface includes a search bar and a table of data fields. The table is organized into sections: Miscellaneous, Policy, and Named Insured 1. The Policy section contains the most data points.
