

# HAWKSOFT 6 RELEASE NOTES

Released 11/14/2024

Category	Type	Release Notes
Accounting	Enhancement	Updated printing of invoices to include an option for printing the invoice with currently applied credits.
Agency Setup	Enhancement	Added the ability to assign/unassign Users to/from an Office.
Downloads	Bug	Fixed issue with emailing eDocs from the attachments screen.
Reporting	Enhancement	The Policies Added and Policies Sold reports found in Agency Intelligence are now also available as Quick Reports, allowing you to save a summarized version of these as a template.
Reporting	Enhancement	There is a new "Status Change" report that finds any policy with any policy date field that falls in the specified range, making it easier to run reports for new business or status changes.
Reporting	Bug	Resolved an issue when double clicking a report which causes the screen to shift and launch the wrong customer.
